---

## Summary

Passionate Full-Stack Developer with a keen eye for design and a knack for creating engaging user experiences. Proficient in HTML, CSS, JavaScript, React, Redux, and various front-end frameworks. Committed to delivering high-quality code and collaborating effectively with cross-functional teams to bring digital projects to life. Successfully developed a full-featured messaging application using React.js, Node.js, Express.js, and PostgreSQL, showcasing real-time messaging, user authentication, and a responsive design.

---

## Education

- MSc Computer Science (Network Engineer)  
University of Greenwich, 2023  
Grade: Merit
  - B.Tech Computer Science  
Karunya University, 2021  
Grade: 6.9/10
- 

## Skills

- Proficient in HTML5, CSS3, JavaScript, and Python
  - Experience with React, Redux, and other front-end frameworks
  - Knowledge of responsive design principles and mobile-first development
  - Familiarity with version control systems like Git
  - Strong understanding of UI/UX principles
  - Ability to collaborate effectively with cross-functional teams
  - Experienced in implementing secure authentication and real-time messaging in Node.js and Express.js
  - Skilled in database management with PostgreSQL
-

## Projects

### Messaging App

• Developed a full-featured messaging application using React.js for the front-end and Node.js with Express.js for the backend.

This project incorporates:

- Frontend: React.js with custom CSS for a better design.
- Backend: Node.js and Express.js.
- Database: PostgreSQL for robust data handling.
- Features: Real-time messaging, user authentication, and responsive design.

Implemented user authentication, real-time messaging, and a responsive design.
